CZECH HEALTHCARE SOLUTIONS: Mobile Medical Source Column with Equipment and Accessories

Mobile source column is intended for use where medical gas outputs, high voltage & low voltage installations are needed. The modular system is manufactured of anodized aluminum and together with the chassis steel frame creates a unique concept for mobile healthcare solutions. In the front part of the column, there is a rod used for mounting adjustable & swivel shelves with medical rails and other accessories.

- + Mobile solution of medgas distribution, transmission of electrical & data signals, and mounting accessories next to a bed
- + Quick & safe plugging of medical gases thanks to built-in gas outlets
- + Connection to ordinary pressure cylinders
- + Stationary chassis due to large wheels, wide base, and low positioned gravity center
- + Easy manipulation because of proper wheels
- + High variability to fix assorted accessories
